

MAY 2016 ISSUE • PEP MEMBER NEWS

CAM AIR | ENVIROCHEM | GOLF OUTING RECAP | NEW MEMBERS | UPCOMING EVENTS

Dear Jessica,

Since 2005, the PEP Board of Directors has presented the [PEP Environmental Stewardship Awards](#) to recognize PEP members whose work has made a significant and positive contribution to the Gulf Coast region in three crucial areas: economic growth, environmental health and social responsibility.

This month we highlight award recipients, [CAM AIR](#) and [ENVIROCHEM](#).

CAM AIR Energy Efficient Light Integration for Merchants Transfer

CAM-AIR was chosen to consult and integrate a state-of-the-art lighting solution within the Merchants Transfer Western

Warehouse to combat their largest energy consumer: inefficient lighting. By integrating energy efficient fixtures and installing smart dimming motion sensors, Merchants Transfer was able to reduce its light-related utility consumption by nearly 75 percent. [Learn more here.](#)

REDUCED ENERGY CONSUMPTION BY

75%

EQUAL TO PLANTING
63 ACRES
OF TREES ANNUALLY

INCREASED
CASH FLOW BY ALMOST

\$25,000
ANNUALLY

ENVIROCHEM Blighted Homes Demolition Project

EnviroChem was selected by the City of Mobile to provide environmental services for the city's "Blighted Homes Demolition Project," which involves inspections and testing to address potential asbestos and lead-based paint worker exposure and waste disposal issues encountered during demolition of condemned and blighted homes. [Learn more about how this will positively impact property owners in Mobile.](#)

Congratulations to [CAM AIR](#) and [ENVIROCHEM](#) and thank you for making a positive contribution to the Gulf Coast region's triple bottom line, economically, environmentally and socially.

Best Regards,

Jennifer Denson

Thank you PEP Member, [Alabama State Port Authority](#), for making a difference in our

community. They recently completed their annual Three Mile Creek trash removal campaign - bagging over 40 cubic yards of litter! This year they bagged plastic and aluminum beverage bottles and cans, household cleaner containers, plastic jugs and cans, tires, motor oil cans, wood siding and handles, and foam rubber. The source you ask? Common litter along our streets, commercial establishments and neighborhoods entering storm drains that feed into Three Mile Creek.

2016 Golf Outing

Each year our PEP members and volunteers coordinate a fantastic golf outing. This year was no exception -- 212 golfers participated, supporting the PEP mission and core beliefs. Team Hargrove (pictured upper left) was our overall tournament winner. It was a beautiful day, and a great time was had by all. Thank you to everyone who helped make this year a great success.

PEP is pleased to welcome new member, [Adventures in Advertising/JNC Designs, Inc.](#), a promotional product distributor and proud member of the Advertising Specialty Institute. Their mission is to help you create long-lasting relationships with your clients through the power of promotional products.

Renie Kennemer

Volunteer of the Year:

The volunteer service of PEP members makes our organization great and Renie Kennemer, Marketing Coordinator for Thompson Engineering, is an exceptional example. Renie brought new life to our Communications Roundtable events -- making them more engaging and useful for our members. Please join us in congratulating Renie as our Volunteer of the Year!

[Our June Lunch and Learn is sponsored and presented by Ingersoll Rand.](#)
[Join us for a presentation by Paul Hand of Ingersoll Rand: *Compressed Air, the Fourth Utility.*](#)
